Dear copartners and friends,

Our Parallel Event "**Health for Change - Strengthening the Resilience of Refugee Women**" should have been held on Monday 16th at 6.15. p.m. at the Church Center of the United Nations at New York. Instead, the virtual consultation day UN Women invited us for will be held on the 16<sup>th</sup> and we are glad that to have the chance to meet you on Monday "in the cloud".

Due to the actual global Corona pandemic, health issues are at the focus of every nation. The consciousness of every single citizen is focused on prevention, individual and social responsibility. Hygiene, mental and emotional stability and a strong immune system are at the core of our awareness. "Health for change", the title of our Parallel Event has an actual relevance in a very dramatic way. We hope to find appropriate ways to collaborate with you again soon. If there is anything we can do for you, your dearest ones and your organizations please tell us.

With the best wishes
