

Priority Theme:

"Innovation and technological change, and education in the digital age for achieving gender equality and the empowerment of all women and girls".

INVITATION for CSW 67 – Virtual Parallel Event

The Foundation for Subjective Experience and Research S.E.R.

in collaboration with

- the **Association for World Education (AWE)**
- **ERGOSOMA® International / Ergosom Association**

is pleased to invite you to a virtual workshop on

**Thursday, March 16th. 2023, from 5.00 p.m. to 7:00 p.m. CET
(90 Minutes)**

Workshop title:

"How do female qualities promote reconciliation, education, health in digitalization?"

Event description:

Foundation for Subjective Experience and Research S.E.R

The process of refining our senses and developing intuition to achieve reconciliation, which requires a new consciousness in the digital world, can empower women and girls to realize and live their full potential.

Association for World Education (AWE)

We support educational programs for young people focusing on dialogue and tools to understand our society. Education must now be aware of challenges posed by increasing digitalization and work to reduce inequality.

ERGOSOMA® International / Ergosoma Association

In Public Health digital innovation provides global platforms to improve women's participation and qualification, such as "Ergosoma® Health Care Program" strengthening self-healing power and reconciliation processes in society. Women become true agents of change.
