The idea is that if everybody, who has enough, shares his wealth with those, who need help, there will be peace and health on earth, as extreme poverty and hunger will be eradicated then and with that essential needs for gender equality, empowerment of all women and girls, Reconciliation and Health are ensured.

To reach this ideal state of a healthy and peaceful World, Reconciliation/Peacebuilding as life-long learning and core competency in World Education, as shown in an S.E.R. Action Plan is indispensable pre-condition.

Sharing also impacts the Power of Empathy for Sustainable Global Health and Reconciliation.
